

Calendula

IN CASE OF CRACKING AND REDDENING OF THE SKIN

is characterized by the presence of Marigold, a plant native to North Africa. This plant is recommended as a cosmetic coadjuvant for skins that are particularly sensitive, dehydrated and prone to cracking and reddening. Thanks to its properties, Marigold provides an eudermic function.

Functional ingredients:

Marigold.

How to use:

Spread with a circular massage an appropriate amount of product on the area to be treated. The application can be repeated as needed.

Pack:

75 ml
