for the quality of life

*Medical Devices Regulation 2017/745 (MDR) IIa class*

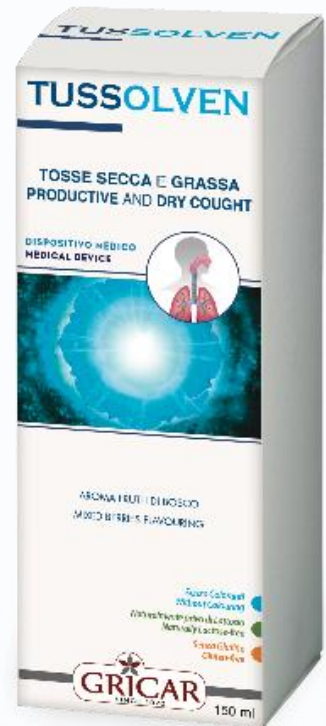

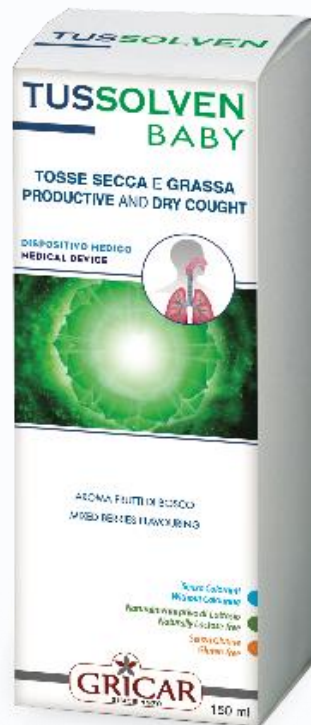

# Tussolven line

Product based on Snail slime, Marshmallow, Sundew and Ivy.

Protective and hydrating for dry and productive cough.

Creates a protective film with a "barrier effect" that calms the cough by protecting the upper airways.

From 3 years old and up.

# Tussolven Adult

Productive and dry cough

Class IIa

CE 1370

**TUSSOLVEN ADULTI** contains Marshmallow, Sundew, Ivy and Snail slime. Those components create a protective film, which acts as a 'barrier', calming cough, by protecting the upper airways; this film is specifically formulated to adhere to the mucosa, limiting its contact with external agents. It also promotes mucosal hydration, supporting the expulsion of excess mucus. Tussolven protects mucous membranes, relieves irritation, hydrates and promotes mucus expulsion, as a result of the following mechanisms of action: barrier properties, mucus-regulating action, lubricating action. Tussolven is indicated for the treatment of both productive and dry cough, of adults and children over 12 years of age.

#### Composition:

Marshmallow, Sundew, Ivy, Snail slime, Honey, Glucose syrup, Citric acid, Eucalyptus e.o., Mint e.o., Anethole, Potassium sorbate, Sodium benzoate.

Lactose and gluten free.

#### How to use:

Administering the last dose before going to sleep. Shake before use.

*It contains a measuring cup CE 0373*

- 15 ml 2-4 times a day for children over 12 years and adults.

#### Shelf life:

36 months

#### Pack:

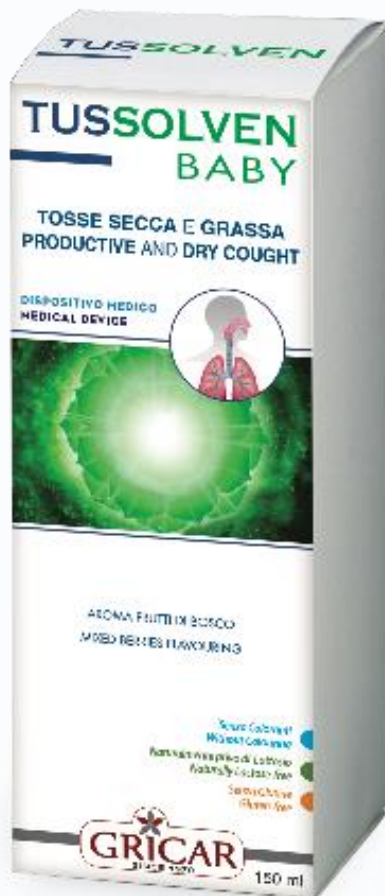

150 ml

# Tussolven Baby

Productive and dry cough

Class IIa

CE 1370

**TUSSOLVEN BABY** contains Marshmallow, Sundew, Ivy and Snail slime. Those components create a protective film, which acts as a 'barrier', calming cough, by protecting the upper airways; this film is specifically formulated to adhere to the mucosa, limiting its contact with external agents. It also promotes mucosal hydration, supporting the expulsion of excess mucus. Tussolven protects mucous membranes, relieves irritation, hydrates and promotes mucus expulsion, as a result of the following mechanisms of action: barrier properties, mucus-regulating action, lubricating action. Tussolven Baby is indicated for the treatment of both productive and dry cough, of children over 3 year of age.

#### Composition:

Marshmallow, Sundew, Ivy, Snail slime, Honey, Glucose syrup, Citric acid, Mixed berries flavouring, Potassium sorbate, Sodium benzoate.  
Lactose and gluten free.

#### How to use:

Administering the last dose before going to sleep. Shake before use.

*It contains a measuring cup CE 0373*

- 5 ml twice a day for children aged 3-6
- 10 ml 2-4 times a day for children aged 6-12

#### Shelf life:

36 months

#### Pack:

150 ml

# TussAway line

Product based on Sodium Hyaluronate, Honey and Mallow.

Protective and hydrating for dry and productive cough.

Creates a protective mucoadhesive film with a barrier effect for the control of the microenvironment.

From 1 years old and up.

Variant for Diabetics without sugar and with Stevia.

# TussAway Adult

Productive and hydrating for dry and productive cough

Class IIa

CE 0477

Thanks to **hyaluronic acid** and **honey**, **TUSSAWAY ADULTI** creates a protective mucoadhesive film with a barrier effect for the control of the microenvironment that, protecting and hydrating the mucosa of the upper airways, calms the cough and makes the mucus more fluid, facilitating its removal. It is specifically formulated to adhere to the mucosa and limit its contact with external irritating agents. Moreover, thanks to the film-forming effect, it acts as an adjuvant in alleviating the typical cough disorders, both dry and productive.

#### Composition:

Water, Sodium Hyaluronate, Honey, Glucose syrup, Mallow distilled water, Citric acid anhydrous, Berries aroma, Potassium sorbate, Sodium benzoate.

Lactose and gluten free.

#### How to use:

Shake before using. 5 ml up to four times a day from 12 years old.

Perform the last administration before going to bed.

*Contains measuring cup marked CE 0373.*

#### Shelf life:

36 months

#### Pack:

150 ml

# TussAway Pediatric

Productive and hydrating for dry and productive cough

Class IIa

CE 0477

Thanks to **hyaluronic acid** and **honey**, **TUSSAWAY PEDIATRIC** creates a protective mucoadhesive film with a barrier effect for the control of the microenvironment that, protecting and hydrating the mucosa of the upper airways, calms the cough and makes the mucus more fluid, facilitating its removal. It is specifically formulated to adhere to the mucosa and limit its contact with external irritating agents. Moreover, thanks to the film-forming effect, it acts as an adjuvant in alleviating the typical cough disorders, both dry and productive.

#### Composition:

Water, Sodium Hyaluronate, Honey, Glucose syrup, Mallow distilled water, Citric acid anhydrous, Berries aroma, Potassium sorbate, Sodium benzoate.

Lactose and Gluten free.

#### How to use:

Shake before using. Perform the last administration before going to bed.

*Contains measuring cup marked CE 0373 and dosing syringe marked CE 0373.*

- 2.5 ml twice a day for children 1 to 3 years old.
- 5 ml twice a day for children from 3 to 12 years old.

#### Shelf life:

36 months

#### Pack:

150 ml

# Airnose

## Nasal spray hypertonic decongestant

Class IIa

CE 0477

**AIRNOSE** is a nasal spray of hypertonic saline solution at 3%, with the addition of hyaluronic acid. AIRNOSE has a decongestant action on the nasal mucosa in addition to a fluidising effect on the mucus. It helps the drainage of secretions and is therefore useful for keeping the nasal passages clean, especially in the case of colds, allergic rhinitis, rhinosinusitis and sinusitis. It is useful to improve the post-surgical course of the nasal cavities or the course of acute rhinosinusitis and nasopharyngitis.

### Composition:

Water, Sodium hyaluronate, Sodium chloride, Thyme distilled water, Potassium Monobasic Phosphate, Potassium Bibasic Phosphate, Potassium sorbate.

Lactose and gluten free.

### How to use:

Shake before use. At first use or after a prolonged period of inactivity, actuate the dispenser several times until the first product is dispensed. To activate the applicator, press with 2 fingers on the base of the dispenser.

- 1 nebulization per nostril up to three times a day for children from 3 to 12 years.
- 1 or 2 sprays per nostril up to four times a day up to 12 years old.

### Shelf life:

36 months

### Pack:

15 ml – 30 ml

# Reflacid

To alleviate symptoms of gastroesophageal reflux

Class IIa

CE 0476

**REFLACID** is a medical device useful for alleviating the symptoms of gastroesophageal reflux such as burning, pain or sensation of acidity, and damage to the gastric and esophageal mucosa in case of gastric hyperacidity. REFLACID works by forming a barrier that protects the mucosa from the attack of gastric juices. Thanks to its components, it carries out a protective action on the mucosa, counteracting the acid pH.

#### Composition:

Sodium alginate, Potassium bicarbonate, calcium carbonate, e.s. Fenugreek, e.s. Mallow leaves, Sorbitol, Maltodextrin, Crosscaramellose, Magnesium stearate, Silicon dioxide.  
Lactose and gluten free.

#### How to use:

Each dose involves the intake of 2 tablets after each main meal, lunch and dinner. It is preferable to postpone the evening intake before bedtime. It is advisable to take the tablets with water or another drink without chewing them.

#### Shelf life:

36 months

#### Pack:

30 tablets
