

# Venafort

## FOR HEALTHY MICRO- AND VENOUS CIRCULATION

is a food supplement of Bioflavonoids, vegetal extracts and Vitamin C. Bilberry and Centella can be useful to counteract heavy legs and, together with Sweet clover and Ginkgo, to keep healthy the main functions of the microcirculation. Furthermore, Sweet clover is useful for functionality of the hemorrhoidal plexus. Vitamin C contributes to normal collagen formation for the regular function of blood vessels.

### Functional ingredients:

Vitamin C, Bioflavonoids, Bilberry, Sweet clover, Centella, Ginkgo Biloba.
