Propolis Adults

A LINE OF NATURAL REMEDIES, USEFUL FOR FALL, WINTER, SPRING, SUMMER

LINEA PROPOLIS is a complete line containing Propolis with controlled doses and standardized and concentrated active ingredients, obtained with the MAEF™ method. This extract is purified, concentrated (tit. in total bioflavonoids content, measured as galangin $\geq 4,1\%$) and dewaxed, but not depleted of its natural mix of functional substances. It is obtained exclusively starting from standardized and certified raw material.

The properties of propolis are: antibacterial, antiviral, antifungal, anti-inflammatory.

Analcoholic drops:

For the defenses and well-being of nose and throat

Propoli gocce adulti is a food supplement of Propolis with Honey and extracts of Coneflower, Marsh mallow and Licorice. Propolis is produced by MAEF™ method, a process of high efficiency maceration, to manufacture a concentrated, purified and dewaxed extract. Coneflower promotes the natural defense of the body; Marsh mallow supports the functions of the respiratory mucosa. Finally, Licorice is useful for nose and throat wellness and for fluidifying bronchial secretions.

How to use:

30 drops, three times a day, divided between main meals, dissolved in a little water or other liquid to taste.

Pack:

50 ml

NUTRITIONAL VALUES

NUTRIENTS	per 90 drops
Propolis extract	0,12 ml
